About Silicon Review's List of Top 10 Fastest Growing Cloud Computing Companies
The Silicon Review magazine, published from Silicon Valley, California and having development office in Bangalore, India; is a business and technology magazine for tech decision makers and enterprise IT. It is the most trusted source of news and information for business professionals. The 10 Fastest Growing Cloud companies list is a printed annual edition for companies providing key technology solutions and services related to Software.

The Most Trusted Website Content Authority in the World
BluePrint Data specializes in providing high quality Website / URL Filtering, which makes them the most trusted Website content authority in the world. In fact, other Internet Filtering companies contract with BluePrint Data to complete web site / URL content reviews to improve their filter databases or when their automated technology can't determine a website or URLs content.

 "BluePrint Data is delighted to see our hard work and service to our customers recognize" said Bob Dahlstrom, CEO of BluePrint Data. "This validation of our growth reinforces within our company the importance of our customers and our customer relationships. After all, we are in business for our customers, if they don't succeed, we don't succeed."

Serving a Healthy Client Base
A leading provider of OEM website / URL Content Filtering technologies and services, over the years BluePrint Data has witnessed a revolution in the cloud market. Serving the market for over 16 years from now, they have observed the growth of the cloud and actually had cloud services embedded into their product offerings since inception. Today, they are a global leader enabling their customers to provide high quality and low cost internet filtering solutions, either standalone or integrated, to their end users.

The company provides its clients a set of API's, SDK's, and Web based tools to utilize their in-the-cloud Internet Filtering service. They also bestow the option of providing copies of the database and/or content engine for local use, installation on network or client devices, or for data center / network, if they don't need a cloud installation. The API's and SDK's provides JSON (Java), HTML (get requests), and XML options and versions to request the URL / website lookups.

Regarded as a true player in the Internet Filtering business as an OEM supplier of cloud based and other internet filtering and security services since 1998, BluePrint Data will continue to focus on providing products and services to their customers that they can integrate into their services and offerings or white label and sell. Home based in Jacksonville, Florida, BluePrint Data has a presence in North, Central and South America, Asia / pacific and India.
