Blue Print Data Selected For 2016 Best of Jacksonville Award - Software Companies

JACKSONVILLE, Fla. – November 3, 2016 – **BluePrint Data**, the leader in high quality, OEM, integrable Internet Filtering and Parental Control was recently **selected for the 2016 Best of Jacksonville Award in the Software Companies** by the Jacksonville Award Program.

Each year, the Jacksonville Award Program identifies companies that they believe have achieved exceptional success in their local community and business category. These are local companies that enhance the positive image of small business through service to their customers and their community. These exceptional companies help make the Jacksonville area a great place to live, work and play.

Various sources of information were gathered and analyzed to choose the winners in each category. The 2016 Jacksonville Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the Jacksonville Award Program and data provided by third parties.

About Jacksonville Award Program
The Jacksonville Award Program is an annual awards program honoring the achievements and accomplishments of local businesses throughout the Jacksonville area. Recognition is given to those companies that have shown the ability to use their best practices and implemented programs to generate competitive advantages and long-term value.

The Most Trusted Website Content Authority in the World
BluePrint Data specializes in providing high quality Website / URL Filtering, which makes them the most trusted Website content authority in the world. In fact, other Internet Filtering companies contract with BluePrint Data to complete web site / URL content reviews to improve their filter databases or when their automated technology can't determine a website or URLs content.

Serving a Healthy Client Base
A leading provider of OEM website / URL Content Filtering technologies and services, over the

years BluePrint Data has witnessed a revolution in the cloud market. Serving the market for over 16 years from now, they have observed the growth of the cloud and actually had cloud services embedded into their product offerings since inception. Today, they are a global leader enabling their customers to provide high quality and low cost internet filtering solutions, either standalone or integrated, to their end users.

Regarded as a true player in the Internet Filtering business as an OEM supplier of cloud based and other internet filtering and security services since 1998, BluePrint Data will continue to focus on providing products and services to their customers that they can integrate into their services and offerings or white label and sell. Home based in Jacksonville, Florida, BluePrint Data has a presence in North, Central and South America, Asia / pacific and India.

About BluePrint Data

BluePrint Data OEMs its URL / Web site content filters, technology, and security products and services to Internet Security vendors such as Unified Threat Management (UTM), Managed Service Providers (MSP), Managed Security Service Providers (MSSP) and Software as a Service (SaaS) providers as well as providing private label / OEM services to Value Added Resellers (VARs), Information Technology Providers, Anti Virus and Anti Spam service providers, Independent Software Vendors (ISVs), and telecom, carriers, and ISPs and other companies. BluePrint Data has the world's largest 100% human reviewed URL Filter Database that is combined with tools and services to provide easy integration of the BluePrint Data OEM URL Filter database.
